

Alex Chen

Email: alex.chen@example.com | Phone: +1 555-0199 | San Francisco, CA

Professional Summary

Results-oriented AI/ML Engineer with strong expertise in Python, predictive modeling, and data analysis. Proven track record deploying machine learning pipelines in production.

Technical Skills

Languages & Libraries: Python, SQL, NumPy, Pandas, Scikit-learn, Matplotlib

Tools & Platforms: Git, GitHub, Docker, Linux, REST APIs

Work Experience

Machine Learning Engineer - TechCorp Solutions

2023 - Present | San Francisco, CA

- Architected automated data preprocessing pipelines using Pandas and NumPy, cutting ETL latency by 35%.
- Trained and evaluated classification models using Scikit-learn achieving 92% precision on test data.
- Streamlined model deployment workflows using Docker containers and REST APIs.

Education

B.Tech in Computer Science and Engineering

State University of Technology | 2019 - 2023
